

Best-in-class POS solution

The Duet POS system delivers a high quality point-of-sale solution that is unmatched in both reliability and functionality.

STREAMLINED OPERATIONS

Efficient Ordering: Easily manage the most complicated orders, whether you need to transfer tickets to other users, change tables, split checks, add discounts, update gratuity and taxes, or handle various other tasks.

Flexible Discounting: Easily set up and customize coupons, specials or other discounts. Discounts can be manually entered or can be automatically calculated based on day, time or items ordered.

Table Tracking: Manage your tables to see which are occupied, which are vacant and how many people are at each table.

INNOVATIVE RESTAURANT SOLUTIONS

Tableside Ordering: Duet enables restaurant servers to input customer orders directly from the table via an Android tablet for a dramatic increase in efficiency.

Online Ordering: Accept orders through your website with a customized and branded menu that integrates seamlessly with your POS system.

Online Reservations: Accept reservations online and manage everything directly through your Duet POS system via an Android tablet.

EASIER RESTAURANT MANAGEMENT

Employee Management: Access a complete employee database, showing specific details on each staff member. Track hours worked, edit timesheets, calculate overtime, evaluate sales performance and manage security levels.

Customer Database: Quickly view customers' order history and personal information. Great for loyalty programs or for serving the "regular."

Menu Customization: Add, edit or remove menu items in real-time with a simple and intuitive interface. Organize your menu items, categories, choice sets and modifiers to suit your restaurant.

Efficiently manage your business – whether it's a bar, quick service restaurant, casual dining or fine dining establishment – so that you can focus on what's important: keeping your customers satisfied and spending!
