

SHIFT 4™

**UPGRADE TO A FIVE-STAR
PAYMENTS EXPERIENCE**

[shift4.com](https://www.shift4.com)

WE KNOW HOSPITALITY

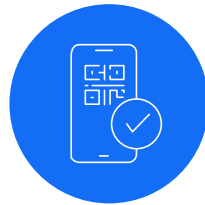

Delivering a five-star payment experience, our unified commerce ecosystem provides a frictionless guest experience across your entire property with our end-to-end hotel and resort solution.

Payments are complex. We make it simple.

MOBILE TECHNOLOGY

Accept payments wherever your guests are – at the golf course, the pool, the spa, and everywhere in between – with our SkyTab mobile solution.

CONTACTLESS SOLUTIONS

Set the standard for speed and convenience. From folio payments to gift shop purchases and on-premise dining, our QR code-based payment solutions provide a wide range of fully contactless guest experiences.

FRONT DESK TERMINALS

Make a good first impression. Guests can check-in with confidence knowing that their payment data is safe by using one of our secure EMV terminals upon arrival.

FULL OMNI-COMMERCE SUPPORT

Our all-in-one payment solution allows you to bring together all your card-present, online, call center, and mobile transactions.

LIGHTHOUSE BUSINESS MANAGER

Lighthouse gives you complete control over your business – with actionable data at your fingertips and powerful tools to manage every aspect of your operation.

SOFTWARE INTEGRATIONS

We have rich integrations with hundreds of leading property management system and point-of-sale solutions, which streamlines operations and maximizes efficiency across your entire resort.

UNIVERSAL TOKENS

A unique token is assigned to each guest so you can securely deliver a seamless commerce experience wherever they are on your property. Our intelligent tokenization technology also simplifies PCI compliance while providing enhanced reporting and analytics capabilities.

ONE CALL FOR 24/7 SUPPORT

With just a single call, you get quick, unparalleled customer support for all your payments needs from our knowledgeable in-house team, available 24/7/365.

Delight your guests and transform your operations with the latest technology from Shift4.
