

# SpotOn Order.

Save money, simplify operations, and own your guest data, with the all-in-one mobile & online ordering platform.

- ✓ Enjoy huge savings compared to third-party delivery services
- ✓ Boost your average ticket price by 18%<sup>(1)</sup> and guest loyalty by 67%<sup>(2)</sup> on average
- ✓ Own your customer data and retarget guests to improve retention
- ✓ Promote contactless payments and dining experiences
- ✓ Use it where you need it – it's compatible with single and multiple locations

## Keep your guests fed and revenue rolling in with these built-in tools.

**Online ordering.** Let customers order take-out and delivery directly from your website

**Order with Google.** Enable guests to place orders directly from Google Search and Google Maps

**Order Pacing.** Manage incoming orders based on kitchen capacity

**E-Gift cards.** Boost online orders and grow your customer base

**SpotOn Delivery, powered by DoorDash.** Get reduced fees when you offer delivery services for online orders using DoorDash's reliable network of drivers. Plus you'll still own your customer data

**QR ordering.** Serve more dine-in guests with mobile QR code order- and pay-at-the-table

**Account creation and login.** Customers can quickly reorder, view their loyalty balance, and save their card information

**Text message notifications.** Update your customers by sending messages back and forth between the POS and the customer's mobile device
